Steps to get your business finance fit

1 READY: Advisers can help

Consider professional advice as a business investment rather than a cost – this mindset can help you succeed. Use a good accountant with strategic experience, don’t just see someone a few times a year for tax time “number crunching” advice.

Brokers can help match a business with suitable lenders. To find a broker who focuses on commercial not home lending look at the CAFBA website (cafba.com.au).

5 questions to help find an accountant

– What experience have you had in my industry?
– How will you help me achieve (or set) my business goals?
– What are your qualifications?
– How can you help me achieve a sustainable, profitable business?
– Do you refer clients to a wide range of funders?

5 questions to help find a broker

– Do you specialise in helping business owners?
– What experience do you have in my industry sector?
– How have you helped similar clients to me?
– Do you charge fees on top of the commission you get from the lender?
– Who are the main lenders you work with and why?

2 PREP: Complete this checklist before applying for funding

Getting finance fit before applying for funding will make all the difference to your success rate.
Business owners will relinquish a level of control over the business with the involvement of equity partners.

*Business owners will relinquish a level of control over the business with the involvement of equity partners.*

**STEP 1**

**Fix your business accounts**
- Separate personal and business finances
- Get your ‘books’ in order – *This is what lenders use to assess if you can pay*
- Check the ATO record for your business
- Compile a financial commitments list
- Check your bank statements – *ideally six months with no overdrafts, defaults or discretionary spend*

**STEP 2**

**Prepare/update your business plan**
- This helps lenders, investors – and you – clearly see your goals and achievements
- Include P & L statement, balance sheet and budget
- Prepare cash flow forecast then compare what you said you’d do to what you achieved

**STEP 3**

**Assess your credit worthiness**
- Lenders can access so much information about you and your business - including social media, such as Facebook
- BEFORE seeking funding, tidy up any outstanding issues to give yourself the best chance of approval
- Check your personal and business credit rating and your tax portal
- Multiple applications can have a negative impact on your credit rating
- Access your Personal Property Securities Register (PPSR) report search results – it’s important to review this (your adviser can help with these two steps)
- If there are any issues in these reports, work with your adviser to correct them

**STEP 4**

**Do you need funding?**
- It’s OK to need funding – the right type of funding for your situation can really make the difference to business growth
- What is your business need? *Urgent cash for short-term issue vs funding for ongoing needs*
- Can you service the debt? *It’s not just the funding amount but the total cost, including fees and charges*
- Understand what giving a guarantee means – for secured and unsecured loans

---

**My Business Health Portal**

*My Business Health Portal asbfeo.gov.au/my-business-health* is a free web portal designed to provide holistic support to small business owners. It offers practical information and resources about those day-to-day issues that keep small business owners awake at night, and useful tips to help them with some of the issues that go hand-in-hand with running a small or family business.

*My Business Health Portal* has been developed in consultation with EveryMind, Beyond Blue and small businesses.

---

**GO: Find funding**

Discuss your situation with your business adviser who can step you through the funding choices of debt or equity, banks or alternative lenders, short-term or long-term funding and secured versus unsecured.
